

RUPAK MUKHERJEE

Frontend Developer | React.js Developer

📞 7047604214 ✉ mukherjeerupak860@gmail.com 🔗 LinkedIn 🐙 GitHub 🌐 Website 📍 Asansol, India

PROFESSIONAL SUMMARY

Frontend developer with 2+ years of self-directed experience building responsive, accessible interfaces with **React.js** and **Tailwind CSS**. Currently leading frontend development on **Task and Furious**, a collaborative task management app, working directly with a backend developer to integrate live APIs, coordinate Git workflows, and ship a production app with sub-second load times. Comfortable turning design briefs into pixel-accurate, cross-device UI and communicating clearly with both technical and non-technical collaborators. Looking to bring that same ownership and cross-functional coordination to a team building real products at scale.

WORK EXPERIENCES

Assistant Accountant | Freelance

Nov 2023 - Dec 2024

Self-Employed

Hybrid • Remote

- Reconciled financial records and managed debtor ledgers for 5–7 client businesses simultaneously, identifying and resolving discrepancies across all accounts.
- Managed structured data for concurrent clients under recurring deadlines, and communicated account details clearly to non-technical stakeholders.

Technologies / Skills Used : Attention to detail, Deadline-driven Delivery, Working with structured data

Account Executive Intern | Internship

Jul 2023 - Sep 2023

Rudra Enterprises

On-site • Asansol

- Oversaw debtor reporting across 7 branches, tracking and reconciling roughly 1,400 debtor accounts (~200 per branch) to ensure accuracy in client-facing reports.
- Documented day-to-day account activity for senior stakeholders and coordinated with team members to ensure accurate, error-free reporting.

Technologies / Skills Used : Attention to detail, Working with structured data, Cross-Functional Collaboration, Documentation

PROJECTS

Frontend Mentor - Frontend Challenges | 🌐 Live Link

May 2024 - Present

Individual Project

- Built 10+ responsive UI components and landing pages from professional design briefs using HTML, CSS, JavaScript, and React, matching pixel-accurate specs across breakpoints.
- Implemented semantic HTML and ARIA attributes across all challenge submissions, ensuring screen-reader and keyboard-navigation accessibility.
- Refactored code based on community peer review across multiple submissions, improving readability and adherence to React best practices.

Technologies / Tools Used : React, Tailwind CSS

Task and Furious | 🌐 Live Link

Feb 2026 - Present

Frontend Developer

- Leading frontend development in a 2-person full-stack team, building a task management app with React.js and Tailwind CSS that reduced UI development time by ~30% through a reusable component library.
- Architected state management using React Context API and hooks, cutting redundant re-renders by ~25% and improving data consistency across the app.
- Built full CRUD functionality with real-time UI updates, achieving a 0.4s Largest Contentful Paint and 0.02 Cumulative Layout Shift on production deployment.
- Integrated frontend with a teammate's backend APIs in a live Git collaboration workflow, coordinating merges and resolving integration issues across the stack.

Technologies / Tools Used : React, Tailwind CSS

Volt Landing Page | 🌐 Live Link

Mar 2025 - Apr 2025

Personal Project

- Designed and built a fully responsive, animated landing page with React.js, Tailwind CSS, and Vite, achieving a 0.8s Largest Contentful Paint and a 0 Cumulative Layout Shift score in production.
- Integrated custom vector graphics from Canva to strengthen visual engagement without adding load-time overhead, keeping First Contentful Paint at 0.3s.

Technologies / Tools Used : React, Tailwind CSS

SKILLS

Programming Languages :

HTML, CSS, JavaScript, TypeScript

Frameworks & Libraries :

React.js, Tailwind CSS, Bootstrap

Tools & Platforms :

Vite, Figma, Git, GitHub, npm, Canva

Soft Skills :

Cross-functional teamwork, Agile/Git workflows, project ownership, quick learner, open-source & community engagement, Teamwork, Problem Solving, Time Management
